July 1, 2025

City of St. Augusta Bill McCabe, City Administrator

1914 250<sup>th</sup> St St. Augusta, Minnesota, 56301

Dear Mr. McCabe,

Subject: Letter Agreement
City of St. Augusta
Capital Improvement Planning
Moore Project No 21008L

In accordance with the City of St. Augusta ("Owner") request, Moore Engineering, Inc. ("Moore") is pleased to submit our proposal to provide Capital Improvement Planning assistance.

#### **BACKGROUND:**

City of St. Augusta manages over 44 miles of roadways. These facilities require routine maintenance and upkeep. In order to plan for maintenance and improvements, the owner is creating a Capital Improvement Plan (CIP) to help properly plan and budget.

### **GENERAL DESCRIPTION OF PROJECT:**

Moore will assist the owner with evaluating the existing road system, recommending improvements, and creating estimates.

#### PROJECT OBJECTIVES:

The CIP will give the Owner the required information it needs to make informed decisions on how to use public money in the most effective and timely manner to preserve the city's infrastructure and plan for future growth. The CIP will provide the framework for the city to determine the proposed infrastructure improvements needed over the next five or more years. The CIP will also serve as a document that will align all stakeholders in moving forward on needed infrastructure improvements in a transparent manner.

### Scope of Work

To meet the project objectives above, Moore proposes to provide the following services:

100: Existing Roadway Evaluation - Completed

200: Capital Improvement Planning

- Once the pavement type, age, condition and history are determined, Moore will provide a recommended treatment type and schedule for each road segment.
- Owner to help determine planning window (5 year, 10 year, 15 year or 20 year).
- Coordinate with the Public Works and City Council on review of the Comprehensive Plan and action items to be included in the CIP.
- Facilitate one (1) Public Works and City Council meeting to discuss initial scoping of the CIP. Initial agenda items may include the following:
  - o Review proposed CIP projects. Identify projects that will require further Study.
  - Discuss the amount and timing of public involvement. Public Involvement can include surveys, Public Input meetings and Public Information meetings.
- Compile engineer's opinion of cost for recommended treatments.
- Prepare up to fifteen (15) preliminary exhibits for proposed CIP projects.

- Complete site visits as necessary to review any site constraints related to the feasibility of the proposed improvements.
- Prepare up to fifteen (15) preliminary cost estimates for CIP projects.

### 300: CIP Application Buildout

- Facilitate three (3) meetings with the City Administrator to review progress on exhibits and estimates as needed. This will also include an estimated amount of correspondence (email and phone) between each meeting.
- Facilitate two (2) meetings with the Public Works and City Council. This will also include an estimated amount of correspondence (email and phone) between each meeting.
  - The first meeting will review the preliminary list of projects, including exhibits, cost estimates and potential funding sources.
  - The second meeting will discuss and determine the proposed phasing schedule and potential funding sources
- Prepare the body for the CIP, which will provide the priority of each project as
  determined by the Owner, the proposed schedule for each project, and the potential
  financial impact to the city based on the schedule.
- Submit the preliminary CIP to the City Council for review. Moore will make any final edits based on comments from the City Council and submit the final CIP for approval.
- Final CIP Document.

### Deliverable(s)

- Preliminary Exhibits for proposed projects
- Preliminary Cost Estimates for proposed projects
- Preliminary CIP
- Final CIP

### **Basis of Proposal**

The following items form the basis of this Proposal:

- Moore will evaluate all paved sections of the existing road system.
  - Map provided of pavement conditions
  - GIS site access to review drone aerials for pavement conditions
- Moore will utilize proprietary online CIP application
- Assistance in Public Involvement, such as surveys or public meetings, has not been included in this scope of work. Based on feedback during the preparation of the CIP, Moore can amend this Agreement to include assistance in any public involvement process.
- The estimates prepared for the CIP will be very preliminary and only to be used for general budgeting and planning purposes within the CIP. Additional study may be required to develop more refined cost estimates prior to proceeding into the design phase on any given project.

#### **Schedule**

Moore will perform the Scope of Work listed above in accordance with the following schedule:

- 100: Existing Facility Evaluation: drone survey completed
- 200: Capital Improvement Planning: 1-2 months after Existing Facility Evaluation
- 300: CIP Application Buildout:

- Review draft CIP spreadsheet with owner: estimated to be September 2, 2025 (dependent on dates above).
- Final CIP spreadsheet deliverable date is dependent on feedback but is estimated to be within 1 month of revisions by owner.

#### Fee

Moore will perform the tasks specified in the Scope of Work above on a Category Billing Rate basis using the actual hours worked, times the appropriate Category Billing Rate plus the actual direct expenses incurred, including subconsultant fees, times a multiplier of 1.15. Category Billing Rates and expense costs listed in Attachment 1 are valid through the end of the current year. On January 1 in each subsequent year, Category Billing Rates and reimbursable expenses may be adjusted to meet market conditions.

	Description of Service	Amount
Phase 200	Capital Improvement Planning	\$37,894
Phase 300	CIP Application Buildout & Presentations	\$28,862
	Total Contract Amount	\$66,756

Based on our current understanding of the work, we estimate the overall fee for this project to be **\$66,756.00**. A detailed breakdown of task hours is shown in Attachment 2.

#### **Standard Terms and Conditions**

Our services will be provided in accordance with the Attachment 3 "Standard Terms and Conditions for Professional Services", which are integral to this proposal.

### Closing

Should you find this Proposal acceptable, please have the authorized representative of the City of St. Augusta sign the Acceptance portion of this letter below and return one (1) fully executed copy of this Proposal to me. Receipt of a fully executed copy of this Proposal will serve as our Agreement and our Notice to Proceed. We appreciate the opportunity to submit this Proposal to City of St. Augusta, and we look forward to working with you on this Project. Should you have any questions or need additional information, please contact me by phone at (612) 699-0399.

Sincerely,

Chris Bunders, PE Senior Project Manager

City of St. Augusta Capital Improvement Planning Moore Project No. 21008L | July 1, 2025 Page 4 of 4

### Acceptance for City of St. Augusta:

We hereby authorize Moore Engineering, Inc. to proceed with the work described above.
